

1st March 2022

Dear Parents/Carers

Kestrel Class Visit to Mouldsworth Dairy Farm

We are planning to visit Mouldsworth Hall Dairy Farm on Friday 11th March to find out about the farming process and see the many calves they have at this time of year. This is a local trip, however, as this is a working farm we require many adult helpers in order to ensure everyone is kept safe. Please note we are unable to accommodate younger siblings.

We would very much appreciate it if you would take your child directly to the farm – meeting at 9am and then stay with them for the duration of the visit (approx. 1 hour). However, we realise this may not be possible for all families. If you are able to take more than one child please arrange amongst yourselves, however please also let us know your arrangements for any lift sharing. If you are still struggling with transport, please also let us know. This visit has been running for many years now and it is one that is always very popular. As such we are very grateful for your support in facilitating it.

Please respond on Parent Pay with your consent for the visit including any additional arrangements.

All children (and adults) will require old clothes and welly boots. We will share the address etc closer to the date.

Regards

Kestrel Team
